Fabrication and Erection

The integration of design with detailing forms the crux of fabrication and erection. Future Colours brings with it 1 years of international experience in handling the entire graphics, fabrications and its erection works of all types and its structures.

Our graphics/ signage fabrication division is well fitted with state-of-the art machinery and equipment's that enable our workforce to carry out the tasks with highest precision. We provide the best available tools and equipment for our work force to perform with maximum efficiency.

Besides we have also invested sizably in computers, software's, high-speed data links and other communication tools to exchange information between other production facilities and keep

abreast of our production plans and status. Our technical knowledge and skills have enabled us to continuously provide quality solutions in signage fabrication and erection.

Our systematic approach to solutions has translated into increased productivity and optimizing the overall cost of production to our customers. With our technical exposure to all aspects of site operation and management, we work hand in hand with clients to always meet their requirements. It has always been our commitment to provide the highest quality in the most timely and efficient manner possible.

Manufacturing Division:

At future Colours Advertisement our manufacturing division is not only well equipped technologically but also takes adequate care in assessing various factors such as design, planning and execution. We provide a full spectrum of requirements through high standards of workmanship that results in high productivity and performance. Besides undertaking project signs and executing them independently, we also extend our services in coordinating and supporting mega projects. We have dedicated workforce to cater to the needs of various projects and facilitate smooth execution handling of project sites.

Our Quality Health Safety & Environment Policy:

“To ensure that all work is carried out with necessary health and safety of the employees at all times and at every work site, our QHSE Policy will always be compliant with the requirements of the relevant local and international practices & required legislation.”

We integrate our QHSE policy at all levels. We are committed to the health and safety of our employees and continuously strive to improve and upgrade our quality standards to meet the international quality requirement through advanced production methodologies. We also take adequate care in protecting our environment and emphasize creating strong awareness among our employees through training and motivation. We routinely carry out all quality procedures right from initial project mobilization to final delivery.

Our employees are our assets. We believe that our Employee and Customer satisfaction is a key driver of growth and profitability. Our commitment is to continuously empower our employees through various training programs and thereby improve the satisfaction of our customers. The welfare of our employees and the trust of our clients are the two foundations on which Future Colours is built. We believe that by ensuring this, our growth will naturally happen.

HEALTH AND SAFETY POLICY

Future Colours Advertisement recognizes the importance of good health and safety planning prior to the commencement of project works so as to avoid any possible injuries or endanger the health and safety of all personnel involved in the project.

To realize our objectives, Future Colours has prepared the following statements that constitute a safety plan. Hereby we are going to describe to Future Colours intends to manage, control, and coordinate the works in order to protect the health, safety and welfare of all personnel engaged in the project and others who may be affected by the operations.

The following statements aim to provide a plan for Future Colours Management and monitoring systems and measures to ensure the safe operation of work through the contract period.

Future Colours understands the main contractor has put in great efforts in maintaining good safety and health performance amongst its projects. Future Colours will ensure that the same scenario is adopted and maintained through the contract period with the highest priority.

Future Colours will try its best to convey the same message of maintaining high safety and health standards to all subcontractors and their workers.

Future Colours will also ensure that all project works confirm to the safety standard as required by the main contractors well as relevant statutes and applicable codes and standards.

- a. It is the policy of Future Colours to provide safe and healthy working conditions for its employees and to ensure that the conduct its affairs are not harmful to the safety and health of its employees and the general community.
- b. Accidents cost time and money and create pain and misery. They are always caused by unsafe working conditions or unsafe practices. Accidents can and must be prevented by continuous education, perseverance, and determination.
- c. Safety is an important aspect and an integral of our daily operations and therefore should not be neglected or compromised for the sake of progress. Future Colours objectives

can only be achieved with the joint and determined effort of both management and employees.

- d. Responsibility rests with each employee who is hereby encouraged to contribute to the attainment of objectives of this policy. With adequate safety precautions taken, accidents, human sufferings, loss of time and damage to property and equipment can be avoided. Safety is everyone's concern and its achievement requires everybody's cooperation and commitment.
